

BIN SAFE SYSTEM

“Safety is your lifeline.”

PROTECT YOUR FAMILY AND EMPLOYEES FROM ONE OF THE MOST COMMON ACCIDENT LOCATIONS ON A FARM

The Northern Strands Grain Bin Fall Protection System

Our patent pending fall protection system is a cutting edge product designed to protect farm workers from a fall while climbing or accessing a bin for repairs or inspections.

Top 5 reasons to put a Northern Strands Bin Safe system on your grain bin

5. Allows for safe bin climbing.
4. OH&S, CSA, OSHA & ANSI compliant.
3. OH&S regulations state that a fall protection system must be in place when working at heights above 10 feet.
2. An injury or death due to lack of required fall protection can bring financial ruin to a farm.

1. The NUMBER ONE reason... to protect your family, and employees. *Be safe, not sorry.*

** Price dependent on bin type.*

User Kit

Compatible with both smooth wall and galvanized bin kits. Includes 3' lanyard, fall protection harness and rope grab. One User Kit will service all bins.

\$429.99

WHICH WOULD YOU RATHER BE?

WITH BIN SAFE

WITHOUT BIN SAFE

“When I did fall (off a grain bin), I broke my pelvis in 4 places and I laid in the hospital for 6 weeks before I could even put pressure on my legs. The Bin Safe System allows us to go all the way to the top of the bin and all the way back down safely. That is what every farmer requires or should have to be as safe as possible when climbing bins.”

ABOUT US

FREQUENTLY ASKED QUESTIONS

Do I need fall protection on my bin by law?

Yes, in most Canadian provinces and all of the U.S. it's the law! As of November 2018, grain bin cages will no longer count as fall protection in the United States with the rest of the world to soon follow suit. Bin Safe is a fraction of the cost of ladder cages, staircases and all other grain bin fall protection. Rather than a cage on your next bin, request Bin Safe be installed. Save yourself money and have proper fall protection!

Does the system work for any grain bin?

Our system is compatible with most grain bins! Please contact us to discuss which systems you need for your particular grain bins.

What if I don't want to install the system myself?

Please contact Northern Strands and we will be happy to assist you with finding a suitable contractor to install the system.
